

ALFA
OMEGA
EDEN
TROPICO

Cruise ships, pools, beaches and coastlines around the world: when the view offers sun and water, the Nardi lounge chairs complete the beauty.

Alfa and Omega, Eden and Tropicco, are elegant lounge chairs of original shapes that assure the utmost comfort. Due to the ample experience of the past years, the lounge chairs have reached a standard of high quality and incomparable functionality which makes them even more durable in time. They are made of high quality material with a manufacturing process that respects the environment. They conform to the sector's most required normative of safety. The fabrics as well as the parts are replaceable. This is one of the many aspects that put the Nardi lounge chairs on the highest rank of the market.

ALFA

Sunlounger with arms. Frame in resin and cover in breathable synthetic fabric. Stackable, back reclining in 4 positions, with non-slip feet, small wheels and replaceable fabric. Can be equipped with sunshade.

THE FRAME

Material: Highest quality polypropylene resins anti-UV, uniformly coloured

back reclining in 4 positions

rollers for easy transportation

stackable

Fully reclining backrest

tubular frame, produced with presswork technique "air moulding", that allows closed shapes and guarantees the greatest strength and the easiest cleaning

sun proof and weather resistant

changeable non-skid anti-wear rubber plugs

THE FABRIC

Material: insert is made of breathable synthetic fabric (polyester fiber, pvc coated)

sunshade

customized printing is possible;
for considerable quantities it is possible
to order personalized colour of structure
and fabric

the micro holes make the fabric transpiring
and provide a way out for humidity and
water, without creating stagnant deposits,
guaranteeing the human body the utmost
comfort

no special maintenance is required, can
easily be cleaned with water and possi-
bly with a non aggressive detergent, such
as Nardi CLEAN RESIN. Avoid contact
with any type of cleaning solvents or re-
movers

REPLACEABLE FABRIC

anti tear fabric fixing system;
the fixing system for the Nardi fabrics
is practical and durable, no elastics are
used and no maintenance is needed

profile for the fixing of the fabric is
produced with highly resistant material

the fabric maintains the elasticity

both UV and weather resistant

UNI TEST

Test in accordance with UNI EN 581/1/2/3;
UNI EN 1022 regulation.

For static load test is applied a weight of 200 kg on the seat and 56 kg on the back; for 9 cycles of 30 seconds, and for a long cycle of 30 minutes. For the seat and back fatigue test is applied a weight of 100 kg on the seat and 33 kg on the back for 100.000 cycles.

NARDI TEST

Further load test made by Nardi:

- static load test on the seat for a weight of 500 kg;
- intensified fatigue test by applying on the seat a weight of 200 kg for 200'000 cycles without any defect of the fabric and the structure.
