## Description

---

### Allure Outdoor Sun Lounger Cabana

A double width lounger set inside its own canopied cabana frame, upholstered in a quick dry outdoor fabric on powder coated aluminium. At 155 cm wide it takes two people side by side, and the canopy over the top is the point: it gives you shade that stays where you put it, without dragging an umbrella around the pool.

The charcoal and light grey are upholstered in Sunbrella, which is solution dyed, meaning the colour goes into the fibre before it is woven rather than being printed on the surface. That is why it holds its colour in full Australian sun where a printed outdoor fabric fades, and it is why the Sunbrella fabric carries a 5 year warranty of its own. The pebble is upholstered in a high quality outdoor fabric rather than Sunbrella, and carries a 2 year warranty.

The frame stands 220 cm tall and the whole piece weighs 65 kg, so it reads as a structure rather than a chair. That weight is what keeps it steady, and it is why the cabana ships unassembled and is built in position.

#### Key Features

##### ITS OWN CANOPY

Shade built into the piece rather than a separate umbrella, so it stays where you set it up and does not need repositioning through the day.

##### 155 CM, ROOM FOR TWO

Double width, so two people lie side by side rather than pulling two loungers together.

### OUTDOOR UPHOLSTERY

Charcoal and light grey are solution dyed Sunbrella acrylic, so the colour is in the fibre rather than printed on it, covered by a 5 year fabric warranty. Pebble is a high quality outdoor fabric with a 2 year warranty.

### ALUMINIUM FRAME, NO RUST

Powder coated aluminium. It will not rust in chlorine or salt air, which is what a poolside structure has to survive.

### 40 CM SEAT HEIGHT

Low and lounge height rather than dining height, which is what makes it comfortable to lie back in for an afternoon.

### 65 KG, STAYS PUT

Substantial enough that the canopy frame stays steady. It ships unassembled and is built in position.

Colour. Three colourways: charcoal Sunbrella fabric, light grey Sunbrella fabric, and pebble, a high quality outdoor fabric rather than Sunbrella.

Before you order. At 155 cm wide and 220 cm tall, measure the space and the access route before you commit. It is delivered unassembled and assembled where it will stand, so plan for that rather than expecting to move it afterwards.

Complete the setting. The Allure Sunbrella Outdoor Sun Lounger is the single lounger from the same range, and a purpose made Allure outdoor cover is available in black.

OriginAsia

Warranty5 years Sunbrella fabric on charcoal and light grey, 2 years pebble fabric, 2 years frame and components

Care & Cleaning

Clean with mild soapy water and a soft cloth or brush, then rinse with fresh water. Avoid solvents, bleach and abrasive pads. Let the upholstery dry fully after rain rather than covering it damp, and in coastal areas rinse the frame more often to clear salt spray. Use a cover or store it under shelter through long periods out of use.

Frequently Asked Questions

Does the cabana come with the canopy?

Yes. The canopy is part of the cabana frame, not a separate purchase.

How many people does it fit?

Two, side by side. It is 155 cm wide, which is roughly double a single lounger.

Does it need assembly?

Yes. It is delivered unassembled and should be built in the position where it will stand, since it weighs 65 kg.

Will the fabric fade in full Australian sun?

The charcoal and light grey use Sunbrella, which is solution dyed, so the pigment sits inside the fibre rather than on the surface, and that fabric carries a 5 year warranty separate from the frame. The pebble uses a high quality outdoor fabric rather than Sunbrella, with a 2 year warranty.

How tall is it?

220 cm to the top of the canopy frame, 155 cm wide, with a 40 cm seat height. Measure your access route before ordering.
