Description

Pebl Sand Outdoor Rug

The Pebl Sand Outdoor Rug is a flat woven outdoor rug in a soft sand colourway, made to sit under a lounge or dining setting on a deck, a terrace or a paved courtyard. It comes in four sizes, two round and two rectangular, so it can be matched to the shape of the setting rather than the other way round.

It is woven from outdoor Textilene rather than wool or cotton, and that is the whole point of it. Water drains straight through instead of soaking in, so it will not hold damp against timber decking or grow mould in a shaded courtyard, and it dries in hours rather than days. The yarn is UV stabilised, so a full Australian summer will not bleach the colour out of it.

Underfoot it takes the heat out of paving in the middle of summer and softens the noise that bounces off tiles and rendered walls. Sand is deliberately quiet as a colour, so it sits under almost any furniture without competing with it.

A note on sizing: the usual mistake is going too small. Under a lounge setting the rug should reach beneath the front legs of every seat rather than floating in the middle, and under a dining table it needs to be wide enough that chairs stay on it when they are pulled out.

Key Features

OUTDOOR TEXTILENE

Flat woven outdoor yarn, not wool or cotton.

WATER DRAINS THROUGH

It will not hold damp against decking, and it dries in hours.

UV STABILISED

A full Australian summer will not bleach the colour out.

FOUR SIZES

160 x 200 cm, 200 x 300 cm, and round in 150 cm or 220 cm diameter.

ROUND OR RECTANGLE

Match the shape to the setting, not the other way round.

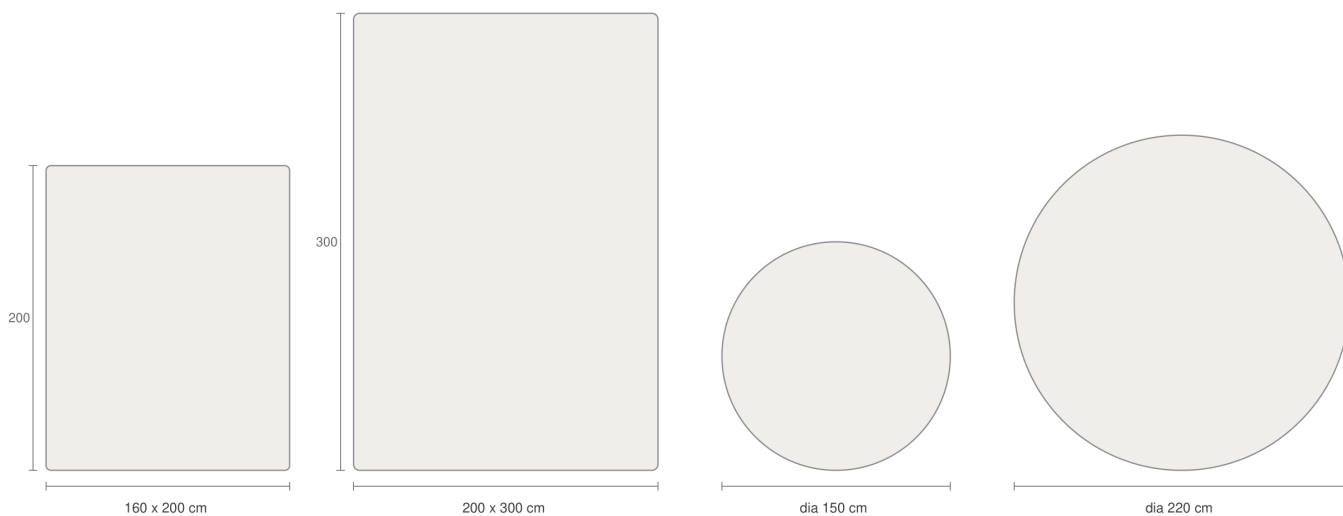

SAND COLOURWAY

A quiet neutral that sits under almost any furniture.

Dimensions

Sand Outdoor Rug | available sizes, shown to scale

Available sizes 160 x 200 cm, 200 x 300 cm, 150 cm round, 220 cm round

Material Outdoor Textile

Colour Sand

Use Outdoor

Weight 16 kg

Care & Cleaning

Hose it down, brush it through with a soft broom and let it dry flat. Lift it off the surface underneath now and

then so both can dry properly, particularly on timber decking. Roll rather than fold it for storage. It needs no sealing and no professional cleaning.

Frequently Asked Questions

Can it be left out in the rain?

Yes. Water drains straight through the weave rather than soaking in, and it dries in hours. Lift it now and then so the surface underneath dries too.

Will it mark my decking?

Lift it and let both the rug and the deck dry every so often, particularly in a shaded spot. That is the same advice as for any outdoor rug and it is the one thing worth doing.

What size should I get?

Measure the full footprint of your setting and go wider. The rug should sit under the front legs of the seats rather than float in the middle of the arrangement.

Which sizes are round?

The 150 cm and 220 cm diameter options. The 160 x 200 cm and 200 x 300 cm are rectangular.

Additional Information

Product Code	RUG-SAND
Weight	16 kg
Product Origin	China
Brand	Pebl
Warranty	2 Years

Product Options

Size:	160x200cm
	200x300cm
	150cm round
	220cm round
