Description

Nardi Komodo Pouf in Atelier Fabric

The Nardi Komodo Pouf in Atelier fabric is a backless pouf that works as a footstool, a chaise extension or extra seating. It pairs the Komodo frame in your choice of four colours with cushions in any of the fifteen fabrics of the Nardi Atelier range.

Komodo is designed for Nardi by Raffaello Galiotto. The frame is moulded from UV treated, mass coloured fibreglass polypropylene with a matt finish and non slip feet, and the resin is recyclable. The backrest and armrests attach to any side of the seat, and the frame comes apart for transport.

Because Komodo is modular, this piece combines with the other Komodo elements, so you can build anything from a two seater to an L or U shaped lounge and change it later.
